BESPOKE INSTALLATIONS

ABOUT

At Baranska Design we pride ourselves on being one of the most technologically advanced manufacturers of handmade glass in Europe. Our designer, Edyta Baranska has spent almost 25 years working with glass, she specialises in the technique of fusing glass. We have developed a wide variety of products to cater for different tastes and all using high quality fused glass. We have the ability to produce in limited or long series; glass tables, mirrors, lamps and accessories, as well as glass wall partitions and other in-

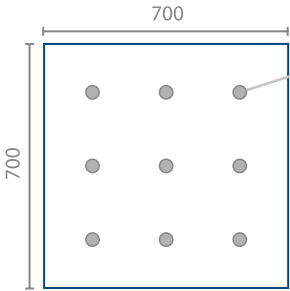

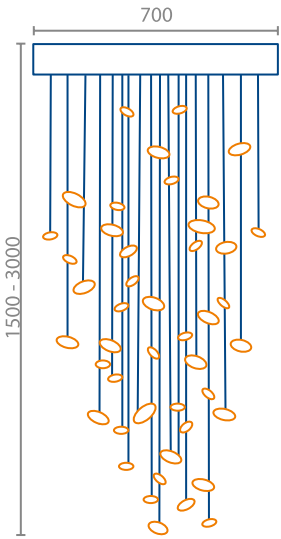

terior objects for hotels, restaurants, bars and the home. We also provide interior glass services for office and retail environments. Our professional in-house team design has a deep understanding of international interior trends and fashions, and we use this knowledge to create designs that match all seasons. Highly finished, the technical advances used to realise our unique collection of fused glass furniture and accessories provides a new level of sophistication for lovers of designer furniture everywhere.

FALLING STONES

Glass Chandelier

Oval, irregular glass elements are perfect for modern interiors, especially in grey, white and black. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

GU 10 / 45 W

Hotel

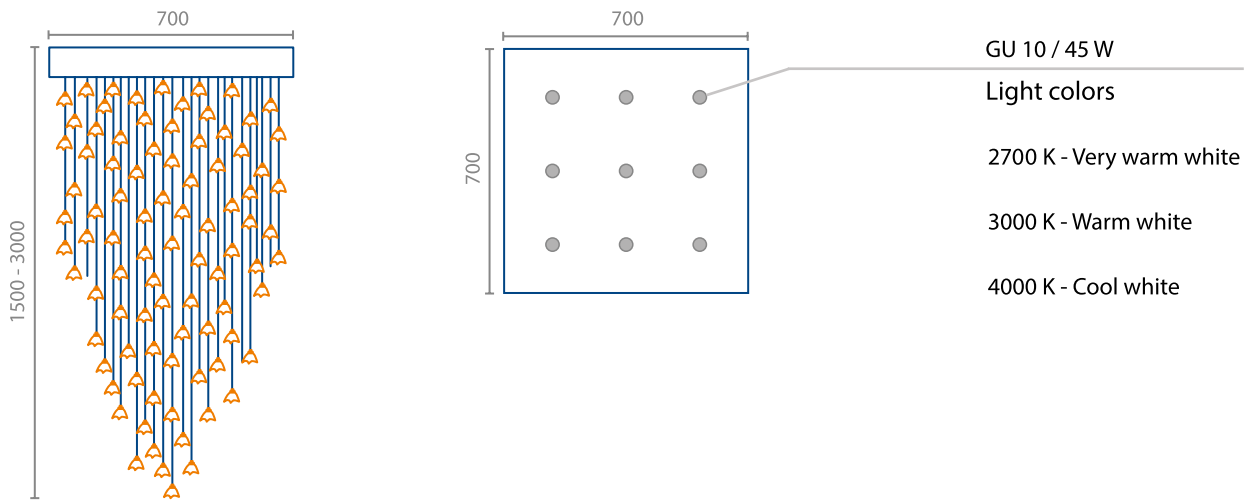

Example of installation in a hotel hall, chandelier 4 m long, polished stainless steel top bezel. The chandelier is suspended on an electric winch, which allows it to be easily raised and lowered by means of a remote control, thanks to which the art glass installation can be serviced and maintained quickly.

SEA FLOWERS

Glass Chandelier

The shimmering glass elements hanging in space reminded us of the ocean, jellyfish and flowers, hence the name Sea Flowers. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

Private interior

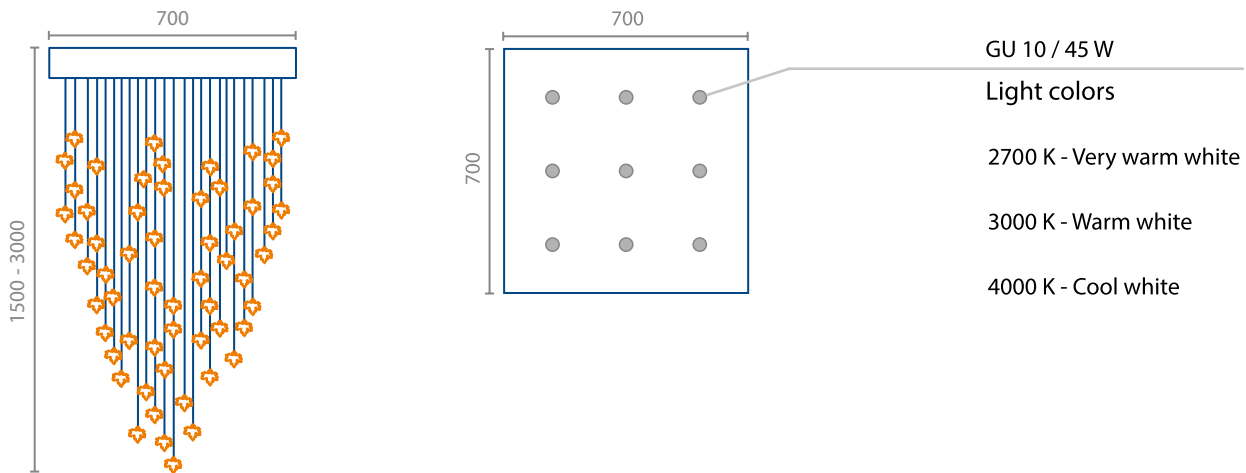

An example of adapting the installation to the interior design. The length and width are selected in accordance with the existing architecture of the false ceiling, railings and steps. The white and transparent colours of the glass add lightness and modernity to the interior, the upper metal frame, painted white, becomes invisible. The entire LCD colour and light intensity are electronically controlled from the phone.

AUTUMN LEAVES

Glass Chandelier

Autumn leaves spinning in the wind, glass elements handmade by the old Venetian Murano method, coloured with metal oxides or pure gold. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

Basic Colors

Hotel

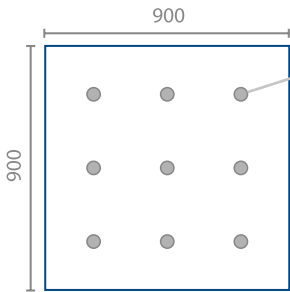

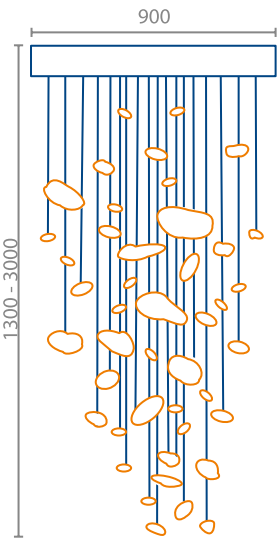

A huge cloud of glass birds welcomes guests in the lobby of the Grano Sol Marina hotel, which is located next to a bird reserve, a fantastic example of the intertwining of the natural world and interior design.

WINTER LAND

Glass Chandelier

The Winter Land chandelier is a unique light installation that carries the interior into a frosty realm of clouds with its delicate, irregular glass elements.

FROZEN LAKE

Glass Wall Lamp

This round glass wall sconce resembles the structure of a frozen lake, with its delicate patterns and icy hues. Its design evokes the tranquil beauty of winter landscapes, adding a touch of elegance to any space. The Winter Lake Sconce is available in three different sizes, offering versatility to suit various spaces. Additionally, the pattern of the inner element can be customized to meet specific design preferences.

ALICE IN THE WONDERLAND

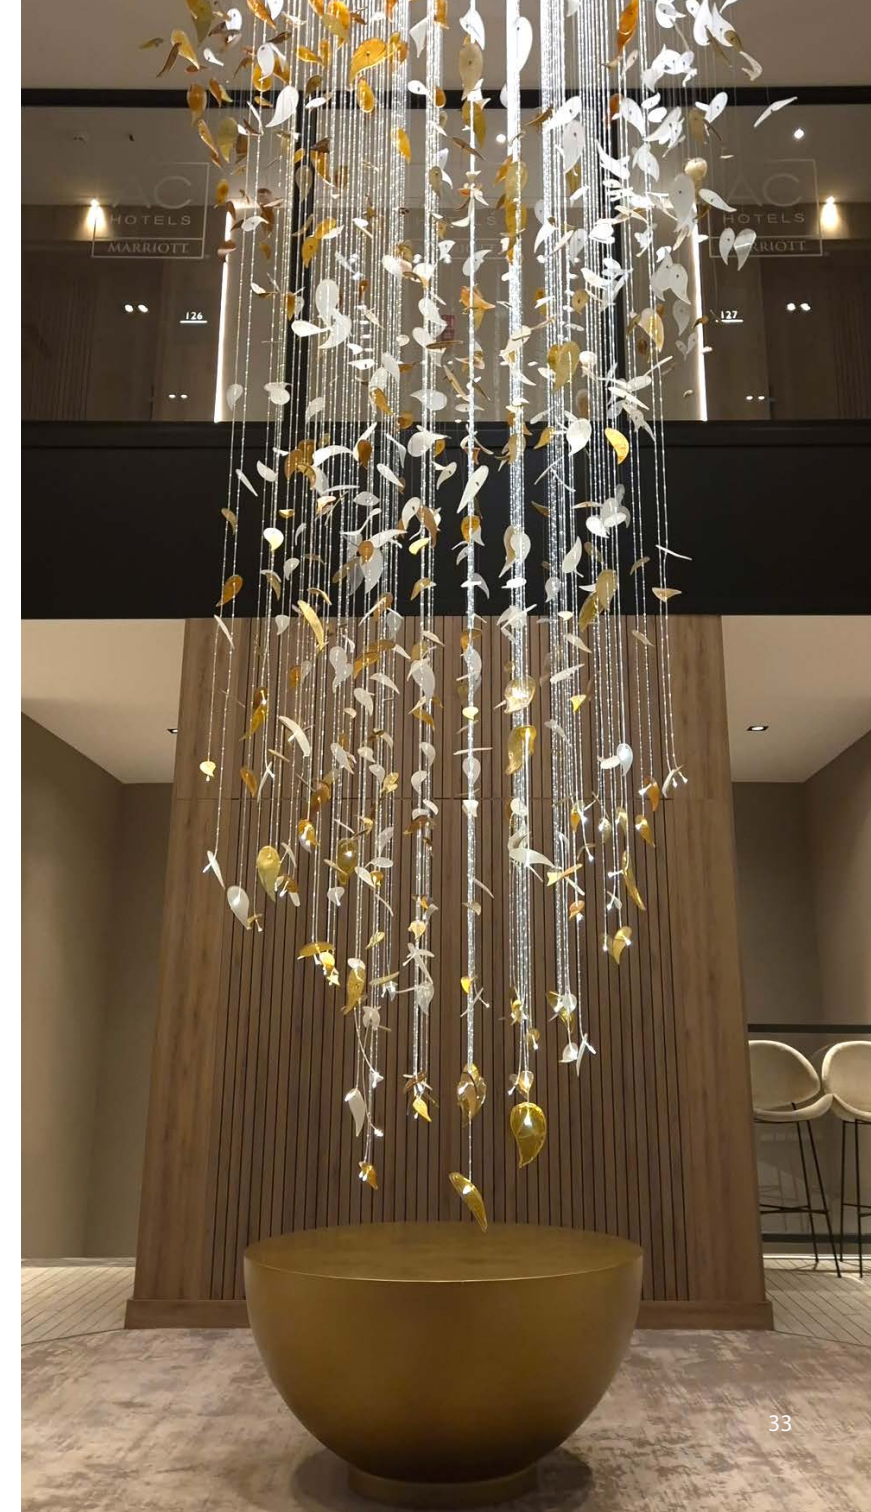

Artistic, unique light compositions are often created on request, such as „Alice's Garden“. A magical world of hand-made colorful glass flowers, leaves and brass twigs with fruit balls blown from antico glass sparkling inside. The whole thing consists of 20 modules, which allows it to be adapted to various interior sizes.

Hotel

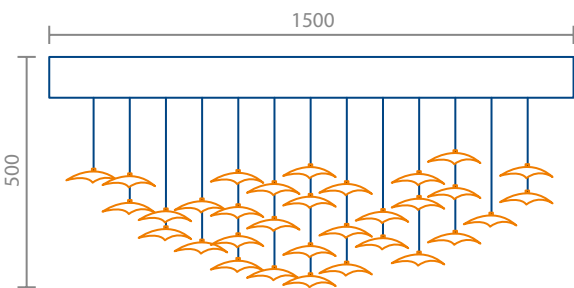

Each interior requires an individual design, in this case, cooperation with the renowned Tremend studio at the AC Marriott Hotel resulted in an impressive, eye-catching installation of hand-made glass mounted on special optical fibers.

SEA BIRDS

Glass Chandelier

Sea Birds is a sister project of Sea Flowers. In keeping with current trends, the form is simpler and more geometric, based on a square projected onto a sphere. Its lines fit with any modern interior. Sea Birds is available on request in a variety of size.

AURORA

Wall or ceiling lamp

The lampshades are hand-made of blown glass, which, thanks to the formed circles, diffuses the light in the form of geometric shapes on the ceiling. AURORA lamps are available in two versions, the ceiling lamps or wall sconces at the same time. The simplicity of assembly makes it possible to arrange various compositions, for example several lamps forming a line or any geometric shape.
